

# SAVE MORE LIVES. GIVE BLOOD.

## Warm Weather Increases The Need

When the weather warms up, so does our community's need for blood. This summer, consider committing to donate every time you're eligible. For whole blood donors, that's once every 56 days, for platelet donors, once every seven days and up to 24 times a year. Your commitment helps ensure local patients receive lifesaving care—because the need for blood doesn't take a summer break. Let's save more lives together.
